

HEALTHCARE STRATEGY CONSULTING ANALYST ROLE

ABOUT ALIRA HEALTH

At Alira Health, our mission is to enable healthcare transformation. We support our client's business with an integrated suite of Product Development, Regulatory, Clinical, Strategy Consulting, and Transaction Advisory services. Our team of scientists, strategists, bankers, and doctors collaborate to fully understand every aspect of our client's business and offer a continuum of support to uncover opportunities, accelerate innovation, and improve outcomes for patients around the world.

Our clients are global, and so are we. Our local presence and global collaboration allow us to deliver actionable business insights and an unmatched continuum of support across the full corporate and product lifecycle. We operate across seven offices located in Boston and San Francisco in the US and Barcelona, Basel, Milan, Munich, and Paris in Europe.

THE ANALYST ROLE

We are looking for **interns** to join us as **Analysts** for **Healthcare Consulting and M&A** for a 6-month period starting in **January or February 2020 in our Barcelona office.**

As a business analyst, you will work on client projects as part of a team and be responsible for problem solving. You will play a key role in gathering and analyzing data, interviewing clients, and contributing to the team's recommendations.

Responsibilities include:

- Conduct research and business analysis of healthcare companies and segments.
- Identify issues and help form hypotheses and solutions to address client questions.
- Work with team to synthesize findings and refine recommendations.
- Develop and edit slide presentations or other communications to convey insights and recommendations of team.
- Monitor important developments, initiatives, news, legislation, corporation activities and M&A transactions, analyzing the impact to strategies and business plans.
- Support in the preparation of marketing documents for M&A transactions (teaser, Memorandum of Information, Management Presentations...).
- Assist in the elaboration of financial valuations (transaction and trading multiples, DCF).
- Assist in the preparation business proposals, presentations and marketing materials.

DESIRED SKILLS AND EXPERIENCE

- Graduating or newly graduated students with MSc in business, Economics, Finance or MSc in Life Sciences related **programs looking for an internship at the intersection of the management consulting and healthcare industries.**
- Fluent in English.
- Excellent proficiency and experience with Microsoft Office (Excel and PowerPoint are a must).
- Strong analytical and organizational skills, strong attention to detail.
- Excellent interpersonal, written communication, time management, and organizational skills.
- Ability to work independently and prioritize tasks.
- Healthcare, engineering or Life Sciences studies and/or meaningful past experience in these areas is strongly desirable.

- Strong finance basis and company valuation techniques for the M&A Analyst position.
